O Young DSc, PhD, Naturopathic Practitioner

Jun 12, 2021

¡Los CDC AHORA NO admiten ningún 'estándar de oro' para el aislamiento de CUALQUIER virus!

Actualizado: Sep 4, 2021

MIEDO = ¡Evidencia falsa que parece real!

¡NADIE HA AISLADO, PURIFICADO Y/O VERIFICADO CIENTÍFICAMENTE Y PROBADO LA EXISTENCIA DE TODOS LOS VIRUS EN CUALQUIER MOMENTO, EN CUALQUIER LUGAR, EN CUALQUIER LUGAR DEL MUNDO!

En los últimos meses, hemos solicitado al Centro de Control de Enfermedades (CDC) pruebas del aislamiento y la existencia de todos y cada uno de los virus, incluidos CoV - 2 y 19, MERS, Influenza, Polio, Sarampión, VIH, XMRV, HTLV -1, HTLV-III/LAV, HPV, Ebola, Zika, solo por nombrar algunos de los llamados virus, divulgados bajo la Ley de Libertad de Información (FOIA).

Estas solicitudes por escrito fueron hechas por la Sra. Christine Massey al Director de CDC/ATSDR FOIA, el Sr. Robert Andoh, para ubicar y entregar CUALQUIER registro, investigación y/o hallazgos para CUALQUIER aislamiento y purificación "viral" (por cualquier persona, en cualquier lugar, en cualquier momento en el mundo) de una muestra de un paciente

mediante maceración, filtración y/o el uso de una ultracentrífuga o lo que se denomina el "estándar de oro" para aislar e identificar un micro o nana organismo patológico. El "estándar de oro" para aislar e identificar microbios se conoce como los postulados de Koch y Rivers, que se establecieron hace muchos años.

Koch vs Rivers

<u>Koch (1884)</u>	<u>Rivers (1937)</u>
<ol style="list-style-type: none"> 1. The microorganism found in the ill but not the healthy 2. The microorganism must be isolated from a diseased organism and grown in pure culture. 3. Produce same disease in host 4. Re-isolation of microorganism 	<ol style="list-style-type: none"> 1. Isolation of virus from diseased host 2. Cultivation of virus in host cells 3. Proof of filterability 4. Produce same disease in host 5. Re-isolation of virus 6. Detection of a specific immune response to virus

Method for Isolating Virus

Respuestas directas de los CDC: "NO HAY REGISTRO DE NINGÚN TIPO" para ningún virus

El Jefe de FOIA de los CDC, el Sr. Roger Andoh, brindó respuestas directas a cada una de nuestras solicitudes, admitiendo por escrito que NO TIENEN NINGÚN REGISTRO DE NINGÚN TIPO, para los siguientes "virus" fantasmas, incluidos CoV - 2 -19, VIH , HPV, XMRV, HTMV-1, HTMV-111/LV, Sarampión, Influenza, MERS, EBOLA, ZIKA o POLIO!

¿POR QUÉ NO HAY REGISTRO DE "CUALQUIER TIPO" PARA CUALQUIER VIRUS?

Todos los gobiernos y sus instituciones y agencias de salud relacionadas se han basado en un estudio publicado, "Detection of 2019 Novel Coronavirus (2019-nCoV) by Real-Time RT-PCR".

Si lee el objetivo del estudio, verá que NO habían aislado un virus basado en los postulados de Koch o Rivers. Afirman en su 'OBJETIVO' y 'Metodología' en el llamado estudio de la siguiente manera:

Apuntar

"Nuestro objetivo era desarrollar e implementar una metodología de diagnóstico robusta para su uso en entornos de laboratorio de salud pública **sin tener material de virus disponible**".

Métodos

"Aquí presentamos un flujo de trabajo de diagnóstico validado para **2019-nCoV, su diseño se basa en la estrecha relación genética de 2019-nCoV con el coronavirus del SARS**, haciendo uso de tecnología de ácido nucleico sintético".

De su propia boca, los autores del estudio se condenan a sí mismos al afirmar que no habían aislado el CoV-19, por lo que crearon el virus y la metodología para probar este llamado coronavirus a partir de una "estrecha relación genética" generada a partir de su propia mentes y las de otros con algoritmos informáticos.

Es por eso que he declarado durante años que los virus solo existen en una hoja de papel y he publicado un artículo sobre esta supuesta teoría: **"El virus es un concepto que solo existe en una hoja de papel"**. [<https://www.drrobertyoung.com/post/el-virus-es-un-concepto-que-solo-existe-en-un-papel-de-papel>]

Bienvenido al sitio de la Ley de Libertad de Información (FOIA) de los Centros para el Control y la Prevención de Enfermedades (CDC). CDC es la principal agencia de salud pública del país, dedicada a salvar vidas y proteger la salud de los estadounidenses. CDC garantiza que sus actividades científicas y de investigación y sus empleados cumplan con las leyes, regulaciones y políticas federales para ejercer el más alto nivel de integridad científica. El núcleo de esta misión es el intercambio de información, no solo información de salud y resultados de estudios de enfermedades, sino información que los CDC recopilan como parte de un proceso continuo de poner la información en acción. Como agencia basada en la ciencia financiada por los contribuyentes estadounidenses, los CDC están comprometidos con la apertura y la rendición de cuentas. Como todas las agencias federales, CDC está obligado a divulgar los registros solicitados por escrito por cualquier persona, a menos que los registros (o una parte de los registros) estén protegidos contra la divulgación por cualquiera de las nueve exenciones contenidas en la ley. Este sitio proporciona información sobre el programa de la Oficina FOIA de los CDC y cómo acceder a los registros de los CDC.

1. 7 de junio de 2021: los CDC admiten que no tienen registro de ningún "virus COV - 2 o 19" purificado de ninguna muestra de paciente mediante maceración, filtración y uso de una ultracentrífuga, por nadie, en ningún lugar, nunca:

Ms. Christine Moore
12 Bayberry Avenue
Canaan, NH 03041
Via email: moorec@pmc.com

Dear Ms. Moore:

This letter is in response to your October 16, 2020 letter to the Director, Center for Disease Control and Prevention and Agency for Toxic Substances and Hazardous Waste (ATSDH) regarding the purification of your "SPPV" aka "Mumps Papillomavirus" ("mumps virus") and use of an ultracentrifuge, also referred to as being to create people as "Trojan's", which have a complete genome of mumps virus, which the patient samples used <https://www.cdc.gov/media/releases/2021/s0607-mumps-virus.html> and have been used.

ATSDH and the Centers for Disease Control and Prevention (CDC) under the Agency for Toxic Substances and Hazardous Waste (ATSDH) describing the purification of your "SPPV" aka "Mumps Papillomavirus" ("mumps virus") and use of an ultracentrifuge, also referred to as being to create people as "Trojan's", which have a complete genome of mumps virus, which the patient samples used <https://www.cdc.gov/media/releases/2021/s0607-mumps-virus.html> and have been used.

It is noted that you have failed to reveal any documents pertaining to your request. Specifically, the National Center for Human Genome Research and Economic Information Systems Agency (NCHG) has not attempted purification of SPPV from human material and there are these documents that may have been published by others on the topic.

You may contact the ATSDH Public Liaison at 703-606-4277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to request access to the ATSDH documents across this offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road, Room 1004, College Park, Maryland 20740-6001, ogis@nara.gov, telephone at 301-837-0770, toll-free at 1-877-684-6447, or facsimile at 301-741-0764.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Request Agency (Send ATSDH OIGIS Office of the Assistant Secretary for Public Affairs, 110 Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 1000, Washington, DC 20462). You may also contact your appeal via email to ATSDHappeals@hhs.gov. Please make sure your appeal letter and envelope "ATSDH Appeal".

Your appeal will be processed or administratively reviewed by September 8, 2021.

Roger Smith
CDC/ATSDH Public Liaison

Mr. Michael Murray
21 Esplanade Avenue
Toronto, ON M5E 1B2
murray.michael@gmail.com

Dear Mr. Murray:

The letter is in response to your letter to the Centre for Disease Control and Prevention and Agency for Toxic Substances and Hazardous Waste (ATSDH), Division of Information on OSHA request of April 14, 2017, for:

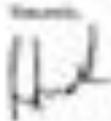

to enable public access to the documents, records or copies of the Centre for Disease Control and Prevention (CDC) under the Agency for Toxic Substances and Hazardous Waste (ATSDH) describing the pathogenesis of any "toxicologic effect" (as mentioned in the report) and/or other information that related to or arises from such access as "toxicity", including a complete copy of the management plan, which the report sample and copy that contained with any other source of genetic material that contains information that the CDC only have access to.

In search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Environmental and Assessment Division reports that CDC does not provide or collect any records vital to the matter described.

You may contact our FOIA Public Inquiries at (703)605-6777 for any further assistance and to provide any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA resolution process they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 800 Airlie Road, OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov, website at 505 761-1774 and fax at 1-477-6969-4444 or Twitter at @ogis_nara.

If you are not satisfied with the response to this request, you may administratively appeal by writing to: the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 100 Independence Avenue, Suite 1108, Washington, DC 20201. You may also contact your appeal request to: FOIAAppeals@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal".

This request must be processed or administratively appealed by September 7, 2017.

Sincerely,

Roger Kozicki
CDC ATSDH FOIA Officer

4. Una carta de los CDC sobre el "Programa de vacunación" para niños y adultos de EE. UU.

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333
June 7, 2021

Ms. Christine Massey
21 Keystone Avenue,
Toronto, M4C 1G9
Via email: cmasey@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 1, 2021, for:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells, fetal bovine serum).

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases apprises that CDC does not purify or isolate any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" virus in the manner the requester describes.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8001 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov, telephone at 202-741-5770, toll free at 1-877-684-6448, or facsimile at 202-741-3768.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to EDUARagarcia@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

[Nota: hubo una referencia a la "influenza" en esta solicitud, pero no afecta nuestra solicitud de ninguna manera porque estaba en el contexto de nuestro ejemplo del registro que buscábamos para validar que el CDC no tiene NINGUNA registro o investigación o hallazgos de CUALQUIER virus que sea responsable de CUALQUIER enfermedad o enfermedad - ¡NUNCA!

5. 10 de junio de 2021: los CDC admiten que no tienen registro de ningún "virus MERS" purificado de ninguna muestra de paciente mediante maceración, filtración y uso de una ultracentrífuga, por nadie, en ningún lugar, jamás:

Contact for Freedom of Information
and Privacy (FOIA)
Request: 2025
June 18, 2025

Ms. Christine Macey
21 Bayberry Avenue
Brookline, MA 02146
E-mail: cmacey@gmail.com

Dear Ms. Macey:

This letter is in response to your Freedom of Information Act (FOIA) request to the Agency for Toxic Substances and Disease Registry (ATSDR), a Division of the Environmental Protection Agency (EPA), regarding your request of May 9, 2025, for:

all studies and/or reports in the possession, custody or control of the Agency for Toxic Substances and Disease Registry (ATSDR) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the production of any **MMR vaccine (non-Regulatory Approved ("label")** (the vaccination, litigation and/or use of an alternative) also referred to or known by some people as "vaccine"), already (from a sample taken from a deceased patient), which the patient sample was (a) first combined with any other source of genetic material (i.e. monkey kidney cells and their cells, from human source)

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Environmental and Regulatory Science supports the ATSDR, but not directly or holds any MMR data as the source identified.

You may contact our FOIA Public Liaison at 770-616-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Governmental Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA resolution process they offer. The contact information for OGIS is as follows: Office of Governmental Information Services, National Archives and Records Administration, 8601 Adelphi Road/MSB, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov, telephone at 202-741-5776, toll free at 1-877-684-6448, or fax at 202-741-1744.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Huber II Humphrey Building, 101 Independence Avenue, Suite 1088, Washington, DC, 20201. You may also transmit your appeal via email to FOIAAppeals@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

Your appeal may be processed or administratively resolved by September 4, 2025.

Sincerely,

Roger Smith

11. 7 de abril de 2021, los CDC declaran que no tienen registro de purificación o aislamiento del "virus HTLV-1" de una muestra de paciente, por nadie, en ningún lugar del planeta, nunca:

April 7, 2021

Ms. Christine Massey
21 Keystone Avenue
Trenton, NJ 08611
Via email: cmassey@gmail.com

Dear Ms. Massey:

This letter is in response to your attached Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 22, 2021.

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention and the National Center for Emerging and Zoonotic Infectious Diseases searched but found no responsive records.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA exemption services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov, telephone at 202-741-5770; toll free at 1-877-684-6448, or facsimile at 202-741-5768.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729C, Washington, D.C. 20201. You may also transmit your appeal via email to FOIAAppeals@hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by July 6, 2021.

Sincerely,

Roger Anshel
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer

[Nota: hubo una referencia a la "influenza" en esta solicitud, pero no afecta nuestra solicitud de ninguna manera porque estaba en el contexto de nuestro ejemplo del registro que buscábamos para validar que el CDC no tiene NINGUNA registro o investigación o hallazgos de CUALQUIER virus que sea responsable de CUALQUIER enfermedad o enfermedad - ¡NUNCA!

Si nadie, en ningún lugar y en ningún momento del mundo, ha aislado y probado la existencia de un nuevo coronavirus de este tipo o de ningún virus como patógeno único, ¿cómo diablos puede una compañía farmacéutica proporcionar un tratamiento con una vacuna para un virus que no ¿Ni siquiera existe?

¿Es el virus o patógeno un virus mítico de 'CUENTO DE HADAS' que necesita una vacuna mítica (¡pero costosa y venenosa!) para destruirlo?

¿O es este virus fantasma la creación de 'malos actores' y 'luciferinos' con el propósito de redistribuir la riqueza del mundo a sí mismos y al mismo tiempo reducir la población excedente de los llamados 'comedores inútiles'?

Como Voltaire nos advirtió una vez:

“Aquellos que pueden hacerte creer en absurdos pueden hacerte cometer atrocidades”.

Como lo indicó claramente el director general, el Sr. Roger Andoh, en sus cartas de CDC FOIA:

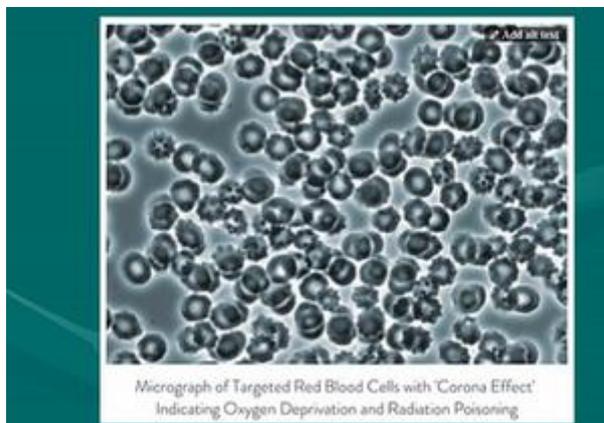

"Dado que actualmente no hay aislados de virus cuantificados del nCoV de 2019 disponibles, los ensayos [pruebas de diagnóstico] diseñados para la detección del ARN del nCoV de 2019 se probaron con stocks caracterizados de ARN de longitud completa transcrito in vitro..."

Como ha dicho Rappaport,

“Dado que ese es el caso, que no hay aislamientos de virus cuantificados, ¿cómo se puede estar seguro de que lo que se determina como COVID-19 es, de hecho, COVID-19?”

USTED NO PUEDE UTILIZAR UN STOCK CARACTERIZADO DE MATERIA GENÉTICA DE ORIGEN DESCONOCIDO CULTIVADA Y CONTAMINADA EN LAS CÉLULAS DE UN FETO HUMANO ABORTADO O LAS CÉLULAS DE MURCIÉLAGO O MONO CUANDO BUSCA UN AISLAMIENTO PURO DE UN ANIMAL O HUMANO SINTOMÁTICO PARA DETERMINAR SU EXISTENCIA Y SU VIRULENCIA!

USTED VE QUE LOS SÍNTOMAS DEL CoV - 19 ESTÁN TODOS ASOCIADOS CON LOS SÍNTOMAS DEL ENVENENAMIENTO QUÍMICO Y DE RADIACIÓN Y NO DE UN VIRUS TEÓRICO ÚNICO. ¡EL CORONA VIRUS NO ES UN VIRUS EN ABSOLUTO SINO UN SÍNTOMA DE DEGENERACIÓN DE LA MEMBRANA CELULAR QUE LLAMO EL 'EFECTO CORONA'!

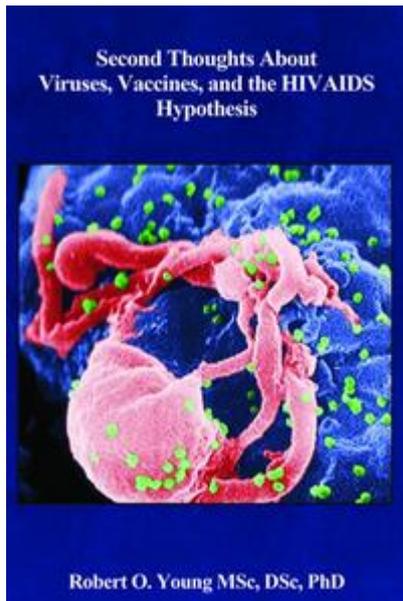

El 'efecto corona' causado por el envenenamiento químico y por radiación sistémico que conduce a la coagulación sanguínea patológica, la hipoxia y la muerte

Las dos micrografías de arriba muestran el 'EFECTO CORONA' en los glóbulos rojos con la 'PROTEÍNA EN PUNTA' causada por la acidosis descompensada de los fluidos intersticiales y luego vasculares debido a un estilo de vida ácido y, específicamente, la exposición a campos electromagnéticos pulsantes tóxicos a 2,4 GHz o superior, envenenamiento químico por los alimentos y el agua ingeridos, contaminación del aire ácida tóxica y rastros químicos y, para rematar, ¡una inoculación cargada de químicos! ¡Por favor, deja tus sentimientos y falsas creencias en la puerta antes de que TÚ MISMO te hagas daño prematuramente!

Para obtener más información sobre el mito de los virus, las vacunas y la teoría viral mítica, lea y estudie Una segunda reflexión sobre los virus, las vacunas y la hipótesis del VIH/SIDA. Puede solicitar este libro en: <https://www.phmiracleproducts.com/collections/books-audio-video/products/second-thoughts-about-viruses-vaccines-and-the-hiv-aids-hypothesis-booklet>

Quién es el Dr. Robert O. Young

Robert O Young CPT, MSc, DSc, PhD, ND Naturópata Practicante

Las respuestas de libertad de información de 90 instituciones (incluida la Agencia de Salud Pública de Canadá, los CDC de EE. UU., el Departamento de Salud y Atención Social del Reino Unido, el Consejo Indio de Investigación Médica) en 20 países/jurisdicciones muestran que las instituciones de salud/ciencia NO TIENEN REGISTRO de "SARS- COV - 2 y 19" aislamiento/purificación de CUALQUIER muestra de paciente, por CUALQUIER PERSONA, EN CUALQUIER LUGAR, NUNCA! - AQUÍ ESTÁ EL ENLACE: <https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation- purificación/>
